Commissioner for Patents	
Title: Foam Treatment of Tissue Products)) Deposit Account No.: 04-14ឦ3
Filed: November 8, 2001) Conf. No.: 9974
Serial No.: 10/007,627) Group Art Unit: 1731
In re Application: Joseph G. Capizzi) Examiner: M. Halpern

In response to the Office Action dated January 3, 2003, favorable reconsideration and allowance of the present application are respectfully requested.

In the Office Action, election of a single species was required because the application was said to contain claims directed to three (3) patentably distinct species, namely the species shown in Figs. 3, 3a, and 3b. Applicant responds with traverse because all claims are generic. See MPEP §806.04(d). For instance, Figs. 3, 3a, and 3b illustrate various configurations of the foam applicator. However, claims 1-31 read on all of these configurations, and thus, read on all three (3) species identified in the Office Action. Nonetheless, Applicant provisionally elects the species shown in Fig. 3 and notes that all claims 1-31 read on this species.

It is believed that the present application is in complete condition for allowance and favorable action, therefore, is respectfully requested. Examiner

02/21/2003 TLOVELAC 01 FC:1251 and encouraged to telephone the undersigned, however, should any issues remain after consideration of this response.

Please charge any additional fees required by this Response to Deposit Account No. 04-1403.

Respectfully submitted,
